VIP Filer

Virtual Internet Processing - VIP Loan Services

Are pages missing? Do you find yourself spending more time with papers than with people? It's time for LoanEntry™ VIP Filer™! The innovative, smart way to address the paper monster that lurks behind each loan. Generally available to large financial institutions for millions of dollars in computer hardware, software and networking, LoanEntry brings an affordable document storage solution to independent Loan Originators with an easy to use, secure and powerful tool. Simply fax, e-mail, or securely post you documents to your VIP Filer account, assign a document type, file the document in a loan file. Your documents are safe, sound and available to you 24/7 from any internet connection.

LoanEntry takes the hassle out of storing and managing the paper associated with your loan files. With easy insertion through fax or email you file your documents for secure online access from any internet connection. Make VIP Filer your on-line file folder and off-site back-up so you won't be caught without your files again.

Improve Productivity

Work smarter, not harder and leverage VIP Filer with Internet fax and email to cut down the paper handling and subsequent shuffling. Also, save precious time with easy access and electronic transfer of the image through email or outbound fax to your borrowers, vendors, and lenders. All this efficiency let you do more with less!

Increase Speed and Responsiveness

Leverage your existing software investments and the Internet to quickly and cost-effectively take advantage of LoanEntry services. Reduce the response time for customer inquiries, increasing customer satisfaction and provide instant real-time visibility into each application to help determine status and eliminate manual tracking.

Reduce and Manage Processing Costs

Eliminate the slow, time-consuming, and error prone manual process of sorting stacks of paper and physically handling them by hand. Leveraging the Internet to email or fax to share documents allowing you to cut into your courier bills.

Focus On Working With Your Clients

With our extensive enterprise application experience at major financial institutions, you can be assured that your documents are handled with the highest quality, efficiency, reliability and security that extends your service and brings you business. This gives you the time to attend to your clients.
